Hot Chocolate Mix

Prep Time: 15 minutes

Ingredients:

1-8 quart box of dry powdered milk (25.6 ounce box)
2 pound box of Nestle's Quick
6 ounce jar of coffee mate powder
1-1/2 cups powdered sugar

Kitchen Equipment Needed

Sealed plastic container- an ice cream bucket works well

Instructions:

Step 1: Mix all ingredients together in a large plastic container.

Step 2: This mix will keep well for quite a long time as long as it is kept sealed.

Step 3: To make hot chocolate: Use 1/3 cup of mix to 1 cup of boiling water.

This hot cocoa mix recipe makes about 28 cups of hot chocolate.
